

Did You Know?

Most people who suffer with pain from Tennis Elbow, aren't Tennis Players at all...

...just everyday people doing everyday things.

At the Tennis Elbow Institute of Baylor College of Medicine, the Orthopedic specialists know that no one can afford to sit out of life for a while, so they are the first in Houston to offer a new FDA approved non-invasive, high-energy shockwave treatment that takes just minutes to perform with virtually no recovery time.
