Get *Peachtree Insight Accounting for Macintosh* with all the Peachtree Insight modules now for a **SINGLE, LOW PRICE!** All five modules of the Insight Expert Accounting series (once priced at \$395 per module) have been reduced in SIZE and PRICE. Now packaged together, the entire system sells for a single, low price of \$395. **That is \$395 for ALL FIVE INSIGHT MODULES!** Once a combined value of almost \$2000, these Insight accounting modules — General Ledger, Accounts Receivable/Billing, Accounts Payable, Payroll and Inventory — have been repackaged and renamed. This new bundle features an installation program, allowing each System 7 savvy module to be used standalone, or totally integrated. Plus, the documentation has been streamlined to provide a more comprehensive reference library.

*Peachtree Accounting for Macintosh* now features new modules, new features and new reports for an unbelievable \$99! Get Inventory, Job Costing, Bank Reconciliation, Purchase Order and much more for this low, low price. These new features add to the programs other System 7 savvy modules — General Ledger, Accounts Receivable/Billing, Accounts Payable and Payroll. And the Custom Forms Design allows logos and graphics to be added to invoices, statements, checks and more.
