CIMA ENERGY LTD. Celebrates its 10-Year Anniversary in the Oil and Gas Industry, with Unprecedented Growth and 50 Percent Increase in Earnings Over Previous Year

The Leading Oil and Gas Marketing Firm Expands Offices, Increases Market Presence

HOUSTON – CIMA ENERGY LTD. is one of the leading oil and gas marketing companies in the Gulf Coast region that has moved to the forefront within the national marketplace, opening additional offices in Colorado and Michigan and expanding natural gas and crude oil market presence throughout the United States and North America.

Ten years ago experts from all areas of the oil and gas industry came together to establish a steady and consistent mechanism to facilitate the process of oil and gas production, marketing and trading – today called **CIMA ENERGY LTD.** With over 100 years of combined experience, these industry experts provide unparalleled market insight and daily link to every aspect of the market, which has resulted in a spike in earnings and demand in services – from early exploration and lease administration assistance to royalty owner customer relations, transportation, storage, and trading.

Recently named among the Aggie's Top 100 Companies, **CIMA ENERGY** attributes its steady success despite market volatility of recent years to a solid customer base. With 98 percent client retention, the company has garnered much deserved respect among partner producers, and fellow traders and oil and gas marketing professionals.

“We’re looking forward to the opportunities 2007 has presented our company. We’ve always operated in a strong and consistent forward moving manner that sustained us well through the volatile years in the industry,” said Thomas K. Edwards, CIMA president.

“Our expansion into new markets is a testament to the strong relationships we’ve made within the oil and gas industry and the conviction and integrity that have and will continue to guide our company,” he added.

The company’s growth has also prompted a complete redesign of its website, which now gives clients greater access to the marketplace and team of CIMA professionals – from project consults and royalty owner relations, to the Natural Gas and Crude Oil teams, the traders....and the commodities market floor. Learn more about the oil and gas marketing services **CIMA ENERGY** provides by logging onto www.cima-energy.com.
